The program allows you to use up to 8 presets or save your own. mxPlayer is a free Windows media player with an user-friendly interface and multiple playback features. In addition to video and audio playback, it allows you to play wav, mp3 and other multimedia file formats. Q: std::getline() behavior changes with pthreads While reading some sample code, I found a weird behavior of std::getline().

```
int main() { char input[10]; int val = 0; const char * str = "1234";
std::getline( std::cin, input ); std::cout << 82157476af
```
